EXPERIENCE

Indian Institute of Technology(IIT) Bhilai

January – March 2025

Project Associate – Java, Spring Boot, Microservices, MySQL, Blockchain

Bengaluru, India

- Developed **Rest APIs** for user registration, login, and user profile management, incorporating various **CRUD operations** for enhanced user experience
- Executed **reset** and **forgot password** functionalities for users, integrating **email verification via OTP**.

Maveric Systems Limited

August 2023 – August 2024

Graduate Software Development Engineer – Java, Spring Boot, Microservices, MySQL

Bengaluru, India

- Designed and implemented **REST APIs** using **Java & Spring Boot** for the Organization ensuring robust functionality and flexibility.
- Designed and implemented a **mail notification** system using the **Graph API**, enabling real-time email alerts for improved user engagement.
- Implemented an **ELK Stack** to monitor system logs and enhance system stability. This helped reduce the mean time to resolution by **30%** and resulted in a **15%** increase in application performance.
- Improved code quality and coverage analysis by implementing **SonarQube**.
- Developed comprehensive unit test cases with **JUnit and Mockito**, achieving over **85%** code coverage.

TECHNICAL SKILLS

- Languages:** Java, MySQL
- Technologies/Frameworks:** Spring Boot, React, Kafka, Microservices, REST APIs, Docker, Github, Jenkins
- Concepts:** Data Structure and Algorithm, Object-Oriented Programming (OOPs)
- IDE:** Visual Studio Code, IntelliJ, Postman, Swagger
- Process:** Agile, SDLC

PROJECTS

Hotel Rating Application with Microservices | Microservices, Spring Boot, Java

[Project Link](#)

- Developed Hotel Rating Application and enabled users to rate and review registered hotels.
- Implemented user, rating and hotel services features using **Eureka service, API Gateway, Feign Client, Config Server, Circuit Breaker, Retry and Rate Limiter with Resilience4J**.

Talent Share Portal(TSP) | Java, Spring Boot, Microservices, MySQL

[Project Link](#)

TSP is an internal project that enables employees to seek guidance and training from senior colleagues when assigned tasks requiring skills they lack. It facilitates knowledge sharing and structured training to help employees enhance their technical expertise and update their skillset.

- Set the foundation for implementing **Microservices architecture** using **Java and Spring Boot**, which helped develop a high-performance application that could handle complex functionalities efficiently.

ACHIEVEMENTS

Java, SQL, and Problem Solving Certification from HackerRank

EDUCATION

Alliance College of Engineering and Design, Alliance University

August 2019 – June 2023

Bachelor of Technology(BTech) in Computer Science and Engineering(CGPA: 8.07)

Bengaluru, India

LEADERSHIP / EXTRACURRICULAR

Quantix(Mathematics and Statistics) Club (Vice President)

May 2022 – April 2023

- Organized a week-long World Statistics Day event and led educational activities for over 150 students at Alliance University through the Quantix Club.
